

8 Warrs Harley-Davidson

» WHERE King's Road, London » WHY? Best bike showrooms in the world...

AFTER cruising down the world-famous King's Road in south-west London, there's probably nowhere better to compile at least half of your dream garage than here at Europe's oldest, and most famous, Harley dealership. Warrs has been in business for 80 years now and this new showroom is a fitting tribute to their success. It's almost as easy to miss it as it is to find, so look for the kink where the New King's Road dies and the King's Road proper bursts into life. Turn down the side street and voila! Acres of chrome, yards of tassels and sheets of leather surround these quarter-ton leviathans. Once you've satisfied the other half that £13,000 for an antediluvian air-cooled cutie is a sound bet, you can celebrate your new purchase in the excellent Fulham Tap pub across the road. Avoid disappointment by making your visit during normal business hours. There's late-night shopping till 8pm on Thursdays.
